The Unexpected Accident

It was a sunny afternoon when Sarah and her friends decided to ride their bikes down the hill near their neighborhood. The hill was **steep**, but they were all excited to race each other to the bottom. Sarah, being the most experienced rider, went first. She felt **confident** as she zoomed down the hill, the wind rushing through her hair.

As she neared the bottom, Sarah noticed a small rock on the path. She tried to steer around it, but her bike hit the rock, and she lost control. The front tire **wobbled**, and Sarah felt herself falling forward. She tried to catch herself, but the bike crashed to the ground, and Sarah landed hard on her side.

Sarah's friends quickly ran over to check on her. They saw that she was hurt but not seriously injured. She had **scraped** her knee and elbow, and there was a small **bruise** on her leg. Despite the pain, Sarah tried to smile and tell them she was okay. But when she tried to stand up, she realized it was too painful to step on her left foot.

One of her friends, Emily, ran to get an adult, while the others helped Sarah sit up and stay calm. Soon, a neighbour, Mr. Jenkins, arrived with a **first aid kit**. He gently cleaned Sarah's wounds and **wrapped** her knee with a **bandage**. He also suggested that they take Sarah home to rest.

After Mr. Jenkins helped Sarah into a car, her friends rode their bikes slowly behind her to make sure she was okay. Sarah felt **grateful for her** friends' help, and though the accident had been scary, she was happy they were there for her.

Script Listening ex.1

Student 1 (Ivan):

Hey, guys! What are your plans for the summer holidays?

1. **Student 2 (Maria):**

I'm going to spend a lot of time with my grandparents in the village. They live near the mountains, so I can go hiking and swimming in the river. It's so peaceful there.

2. **Student 3 (Petar):**

That sounds awesome, Maria! I'm going to the Black Sea coast with my family. We rented a house near Varna. I can't wait to go to the beach every day and try surfing.

3. **Student 4 (Elena):**

I'm going to a summer camp in the mountains with my classmates. I'll be there for two weeks, and we'll do all kinds of fun stuff like archery, rock climbing, and learning about nature. I'm really looking forward to it!

4. **Student 5 (Dimitar):**

That sounds great, Elena! I'm going to stay home this summer, but I'll join a computer programming course with my best friend. We want to learn how to create our own video game!

5. **Student 6 (Katerina):**

I'm planning a road trip with my uncle across Bulgaria. We'll visit places like Plovdiv, Sofia, and the Rila Monastery. I've never been to some of these places before, so it'll be an exciting adventure!

6. **Ivan:**

Wow, everyone has such amazing plans! I'm going to visit my cousins in Sofia. We're going to explore the city, go to the zoo, and maybe even watch a movie at the open-air cinema.

Maria:

That sounds fun, Ivan! I think I'm most excited about spending time outdoors, just away from the city.

Listening Script ex2

Student 1 (Jenny):

Hey, Ivan! How's everything going?

Ivan:

Hey, Jenny! I'm good, just thinking about school. I have to decide what classes to choose for next year. I was wondering... have you already decided?

Jenny:

Hmm, not yet. Well, I think that I'm really good at math. I enjoy solving problems and figuring out tricky questions. So probably I'll pick math.

Ivan:

That's awesome! I'm not great at math, but I think that I'm good at writing stories. I love creating characters and adventures. I guess I'm pretty imaginative.

Jenny:

Wow, that sounds fun! I've always found writing hard, but I like reading stories. You can choose creative writing classes.

Ivan:

You have a point there. Though, I would like to become a lawyer one day, but I'm not a good speaker. I feel very nervous, especially when I have to present something in front of the class. I think the drama classes may help me become more confident.

Jenny:

Oh, I know what you mean! It's important to work on our weaknesses! However, I'll choose what I enjoy studying. I really like science, so I'm definitely going to pick physics and chemistry. What about you?

Ivan:

I love science too, but I think I'll focus more on biology next year. I enjoy learning about animals and plants, so biology sounds like the best choice for me. I also want to take art. I love drawing and painting.

Jenny:

Art sounds fun! I'm not the best at drawing, so I might skip it, but I'm thinking of taking history. I really like learning about different countries and how things were in the past. What about languages?

Ivan:

Oh, I'm definitely sticking with English! I want to get better at speaking and writing in English. I've been practicing a lot at home. But I'm also thinking about taking French. I've always wanted to learn another language, so why not now.

Jenny:

French? That sounds interesting! I'm not sure if I want to take another language. Maybe I'll stick to just English. But I heard they're offering computer science next year. It sounds cool, right?

Ivan:

That does sound cool! I've always wanted to learn how to code and make websites or apps, but I won't have the time next year.

Jenny:

I think I'll take computer science as well. It could be useful, and it sounds fun! So, it looks like we both have a lot to choose from. It's hard to pick the right classes!

Ivan:

Agreed! I'm excited to see what next year brings, even though it's a little scary to choose everything now.
